District 4 Carlton D. Henley

Ian Sikonia

---

**BACKGROUND:**

The applicant is requesting a rezone from RP (Residential Professional) to RP (Residential Professional) on .24 acres, located at 1940 Howell Branch Road. This property was originally rezoned to the RP (Residential Professional) zoning district on March 13, 1984. The rezoning allowed for general businesses as permitted uses and required any medical or dental uses to be brought back to the Board of County Commissioners for approval. The applicant proposes to utilize the existing structure as a medical office for her internal medicine practice. The property consists of a 1,848 square foot single-family home that was converted to an office.

The applicant attended the August 24, 2009 Board of Adjustment meeting and applied for two variances for side setbacks for the existing office. The variances are from 10' to 5' and 3.5' for the east and west side setbacks. The Board of Adjustment approved these variances due to the building being constructed in 1954, which predated the Seminole County Land Development Code. By approving this use as a medical office the Board of County Commissioners makes a finding that the use requested is not detrimental to the character of the area and is not incompatible with the concept of low intensity of land usage and site coverage and does not have an unduly adverse effect on existing traffic patterns, movements and intensity. (LDC 30.624(a) & 30.629)

**PLANNING AND ZONING COMMISSION RECOMMENDATION:**

The Planning and Zoning Commission met on October 7, 2009 and voted 5 to 0 to recommend approval the rezoning request from RP (Residential Professional) to RP (Residential Professional) on .24 acres, located 600 feet east of the intersection of Lakemont Avenue and Howell Branch Road, based on staff's findings.

**STAFF RECOMMENDATION:**

Staff recommends that the Board approve the request for a rezone from RP (Residential Professional) to RP (Residential Professional) on .24 acres, located 600 feet east of the intersection of Lakemont Avenue and Howell Branch Road.

### **ANALYSIS OVERVIEW:**

The following tables depict the minimum regulations for the current zoning district of RP (Residential Professional):

<b>DISTRICT REGULATIONS</b>	<b>Existing Zoning (RP)</b>	<b>Proposed Zoning (RP)</b>
Minimum Lot Size	N/A	N/A
Minimum House Size	N/A	N/A
Minimum Width at Building Line	N/A	N/A
Front Yard Setback	25 feet	25 feet
Side Yard Setback (West)	10 feet	3.5 feet
Side Yard Setback (East)	10 feet	5 feet
Rear Yard Setback	30 feet	30 feet
Maximum Building Height	35 feet	35 feet

### **COMPATIBILITY WITH SURROUNDING PROPERTIES**

The surrounding properties consist of uses that include office and general business. The surrounding zoning districts consist of RP (Residential Professional), OP (Office), and R-1 (Single-Family Dwelling) zoning districts. The surrounding Future Land Use designations consist of Medium Density Residential, Low Density Residential, and Office. This property has frontage on Howell Branch Road which is a corridor consisting of commercial, office, and general business type uses. This property has been in use as a general business use since the rezone in 1984. Changing the use of this structure from general business to medical office would have minimal impact to the neighborhood and would not be out of character with the existing neighborhood or trend of development of the area. Staff feels the proposed rezone is consistent with the trend of development of the area and will provide a better mixture of services.

## **SITE ANALYSIS:**

### **ENVIRONMENTAL IMPACTS**

#### *Floodplain Impacts:*

Based on FIRM map, with an effective date of 2007, there appears to be no floodplains on the subject property.

#### *Wetland Impacts:*

Based on preliminary aerial photo and County wetland map analysis, there appears to be no wetlands on the subject property.

#### *Endangered and Threatened Wildlife:*

Based on a preliminary analysis, there are not endangered and threatened wildlife on the subject property. A listed species survey will be required prior to final engineering approval.

### **PUBLIC FACILITY IMPACTS**

Rule 9J-5.0055(3), Florida Administrative Code, requires that adequate public facilities and services be available concurrent with the impacts of development. The applicant has elected to defer Concurrency Review at this time. The applicant will be required to undergo Concurrency Review prior to final engineering approval.

#### *Utilities:*

There is existing water service by the City of Casselberry from a 6-inch water main on the south side of Howell Branch Rd. The site will be utilizing a septic system for sewer service which is shown on the plan.

#### *Drainage:*

The proposed project is located within the Little Econlockhatchee Drainage Basin, and does not have limited downstream capacity. The site will have to be designed to meet the existing approved drainage design.

#### *Transportation / Traffic:*

The property proposes access onto Howell Branch Road, which is classified as a major collector roadway. Howell Branch Road has ongoing improvements which include the installation of handicap detectable warnings (Truncated Domes) for compliance with the American Disability Act. The project distance begins at S.R. 426, west to the County

line. The projected ending date for all the improvements is scheduled for September 2009.

The RP zoning district requires that the Board of County Commissioners determine the acceptable amount of required parking for properties requesting this zoning district. The applicant is providing seven parking spaces on-site, located in the rear of the property. The Seminole County Land Development Code requires in a standard zoning district that this parcel have a minimum of 10 parking spaces provided on-site. However, since the RP zoning district specifically allows for the conversion of existing single-family homes into professional office buildings, some concessions must be made due to the limited lot area available on single-family home parcels. The applicant proposes to mitigate this impact by reserving three parking spaces for employees on a parcel of land to the west of this property. The applicant has submitted a letter signed by that property owner allowing for the parking to be utilized on their property. Staff feels that this medical office is relatively limited in size and is proposing parking mitigation which is compatible and will not cause a hardship to the surrounding property owners.

#### *School Impacts:*

The proposed use of the property as a medical office will not have any impact to the Seminole County Public School District.

#### *Parks, Recreation and Open Space:*

The applicant is required to provide 25% of the site in open space per Section 30.1344 of the Seminole County Land Development Code.

#### *Buffers and Sidewalks:*

There is an existing 5' sidewalk along the north and south side of Howell Branch Road. The applicant is proposing to buffer the south and east property lines by planting 2 canopy trees, 3 sub-canopy trees, and a viburnum hedge to supplement the existing landscaping on the site.

### **APPLICABLE POLICIES:**

#### **SPECIAL DISTRICTS**

The subject property is not located within any special district or overlay.

#### **COMPREHENSIVE PLAN**

The County's Comprehensive Plan is designed to preserve and enhance the public health, safety and welfare through the management of growth, provision of adequate public services and the protection of natural resources.

The proposed project is consistent with the following list of policies.

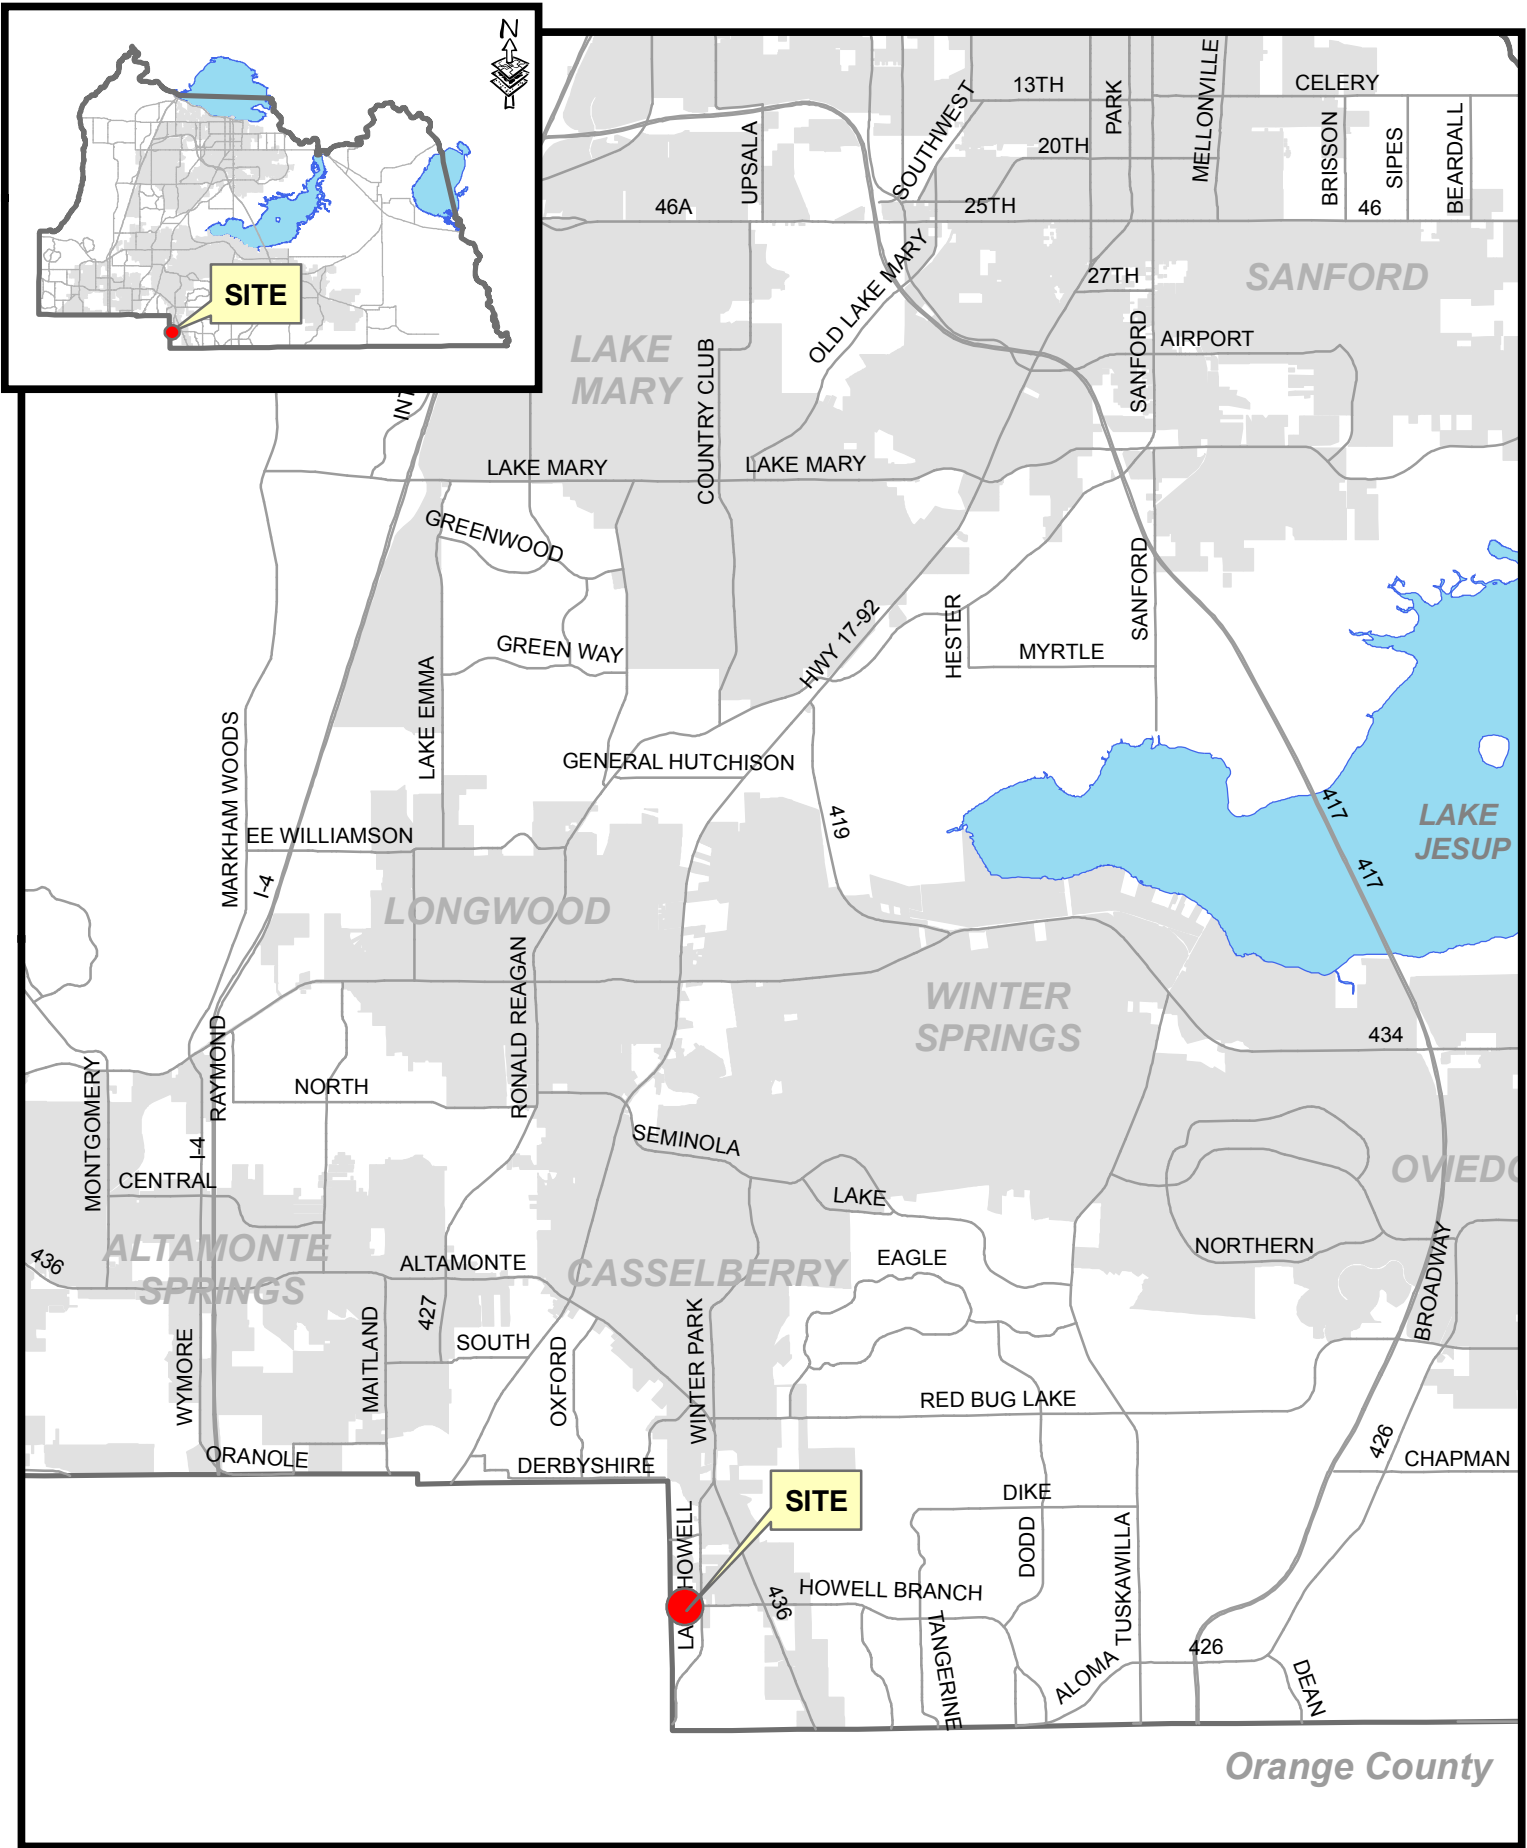

Policy FLU 17.4: Relationship of Land Use to Zoning Classifications  
Policy FLU 17.5: Evaluation Criteria of Property Rights Assertions  
Policy FLU 2.6: Conversion of Residential Structures

**INTERGOVERNMENTAL NOTIFICATION:**

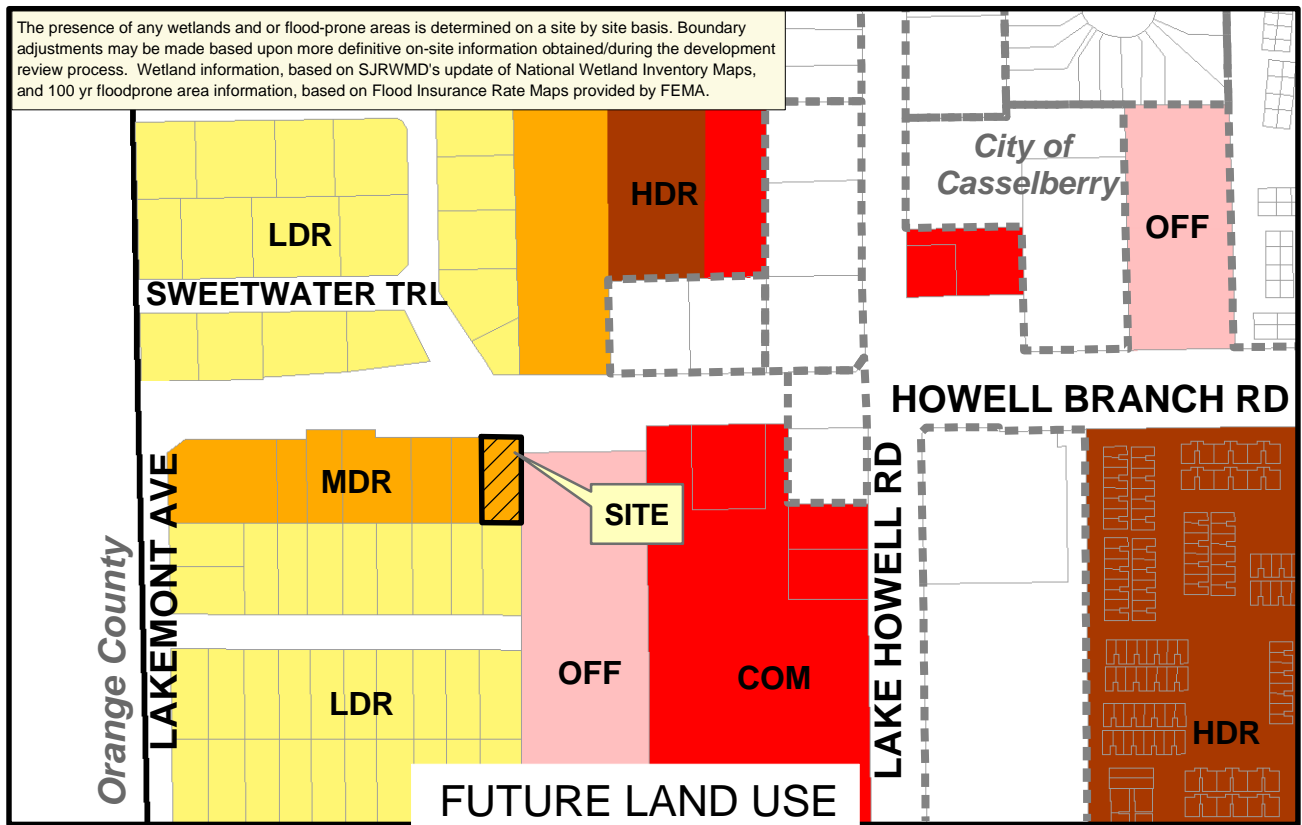

No intergovernmental notices were required for this project.

**LETTERS OF SUPPORT OR OPPOSITION:**

Staff has received one letter in support of this rezoning which is attached to this agenda item.

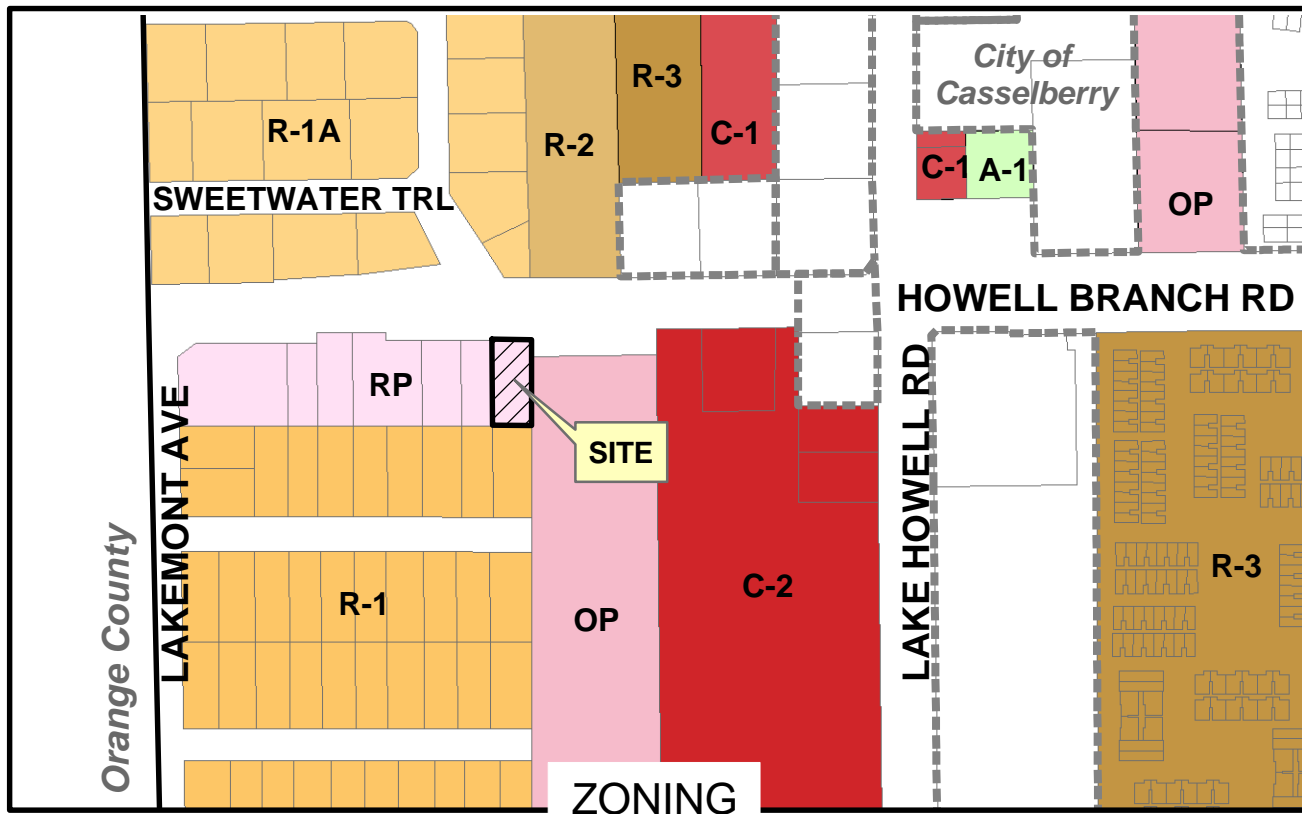

The presence of any wetlands and or flood-prone areas is determined on a site by site basis. Boundary adjustments may be made based upon more definitive on-site information obtained/during the development review process. Wetland information, based on SJRWMD's update of National Wetland Inventory Maps, and 100 yr floodprone area information, based on Flood Insurance Rate Maps provided by FEMA.

Commissioner Henley - District 4  
Ian Sikonia, Senior Planner

**Tina Williamson, Assistant Planning Manager** – presented this item on behalf of Ian Sikonia and stated that this is a request for a rezone located at 1940 Howell Branch Road.

This property was originally rezoned to the RP (Residential Professional) zoning district on March 13, 1984. The rezoning allowed for general businesses as permitted uses and required any medical or dental uses to be brought back to the Board of County Commissioners for approval. The applicant would like to utilize the existing structure as a medical office for her internal medicine practice. The property consists of a 1,848 square foot single-family home that was converted to an office.

Staff finds that the proposed rezone is not detrimental to the character of the area and is not incompatible with the concept of low intensity land use and does not have an unduly adverse affect on existing traffic patterns, movements and intensity and recommends approval of this request.

**Monisha Seth, applicant** – stated that she is looking forward to moving her medical practice from east Orlando to Seminole County and believes that her practice will blend in and complement the existing businesses in this area

No one spoke in favor or opposition to this request from the audience.

**Commissioner Chase made a motion to approve this request.**

**Commissioner Bates seconded the motion.**

**The motion passed unanimously 5 – 0.**
